

FACULTY OF COMMERCE

Bachelor of Applied Accounting, Auditing and Information Systems

1. PRESENTED TO : Senate
2. PRESENTED BY : Faculty of Commerce
3. YEAR/LEVEL OF STUDY : 2
4. MODULE TITLE : Business Information Systems
5. MODULE CODE : BIS213
6. DURATION : 16 Weeks
7. LECTURE HOURS PER WEEK: 2
8. TUTORIAL HOURS PER WEEK: 1
9. STUDENT INDEPENDENT LEARNING HOURS PER WEEK: 4
10. TOTAL MODULE CREDITS: 12
11. PREREQUISITE MODULES: Information Technology (INT125)
12. COREQUISITE MODULES: None
13. DELIVERY METHODS:
 - 13.1 Mode of Delivery : Face to Face
 - 13.2 Teaching Methods : Lectures, demonstration and tutorials
 - 13.3 Assessment Methods : Continuous assessment
: Mid and Final examinations
 - 13.4 Assessment Weighting : Continuous assessment 10%
: Mid Semester examination 30%
: Final examination 60%

14. AIM (S) OF THE MODULE:

The aim of this Module is to provide a learner with an understanding of the significance of modern technology in business applications. It also intends to provide an understanding of information, systems, information systems and their relationship with business systems and information technologies.

15. LEARNING OUTCOMES:

On completion of this module a learner should be able to:

- (a) Differentiate between data and Information
- (b) Identify the relationship between information, business processes and systems
- (c) Describe how information systems can support the functional areas of the organisation
- (d) Explain the importance of internet based developments and their impact on business and information systems
- (e) Discuss the development of Information Systems
- (f) Explain how to recognise security issues relating to business information systems

16. TOPICS OF STUDY:

16.1 System Theory:

- a) Definition of system
- b) Characteristics of system
- c) System environment
- d) Open and Closed systems
- e) Formal and Informal Systems

16.2 Data, Information and Information Systems:

- a) Differences between data and information
- b) Transformation of data into information
- c) Characteristics of information
- d) Differentiate information system (IS) from information technology (IT)
- e) IT infrastructure for information systems
- f) Role of information systems in organisations
- g) Business Drivers of IS/IT

16.3 Types and Characteristics of Information Systems

- a) Major Information Systems of an Organization:
 - i) Transaction processing System (TPS),
 - ii) Management Information System (MIS),
 - iii) Decision Support System (DSS),
 - iv) Executive Support System (ESS)
- b) Distinction between MIS and DSS.

16.4 Introduction to Functional Information Systems:

- a) Marketing information system (MKIS)
- b) Manufacturing information system (MFIS)
- c) Financial information system (FIS)
- d) Human resource information system (HRIS) functions

16.5 Enterprise Information System:

- a) Evolution of EIS
- b) Enterprise Resource Planning (ERP) System concept, architecture
- c) How ERP improve company's business performance
- d) Benefits of ERP

16.6 Inter-Organisational and Global Information Systems:

- a) Inter-organizational Activities
- b) Introduction to Inter-organizational and global information system (IOS)
- c) Types and Example of IOS and global ISs
- d) Infrastructure Technologies for IOS and global ISs
- e) Issues in Designing and Implementing global IS
- f) Benefits and Challenges of Global Information Systems

16.7 Introduction to Database Management System (DBMS):

- a) Database definition
- b) Traditional file-based approach and its problems
- c) The Concept, advantages and disadvantages of DBMS
- d) Applications of DBMS
- e) Simple Techniques used in Data Modelling

16.8 E-Commerce & E-Business:

- a) Internet Technology and the Digital Firm
- b) E-Commerce and the Internet
- c) E-commerce Infrastructure
- d) E-commerce and Business technology
- e) The mobile digital platform
- f) Strategies for an effective electronic commerce implementation
- g) Challenges and opportunities of e-commerce
- h) E-Governance

16.9 Information System Security and Controls:

- a) Information systems security
- b) Types of security breaches
- c) Information systems security and controls.
- d) Internet Security Challenges and Controls
- e) Creating a Control Environment

17. PRESCRIBED TEXT:

Laudon K. C., Laudon J. P. (2015) *Management Information System*, Pearson; 14th Edition; ISBN-13: 978- 1292094007

18 RECOMMENDED TEXTS:

Laudon K. C., Laudon J. P. (2015) *Essentials of Management Information Systems*, Pearson Learning; 12th Edition ISBN-13: 9780133576849

Sousa E. J., Oz E., (2015) *Management Information Systems* 7 edition ISBN-13: 9781285186139 / ISBN-10: 1285186133
